

## A Brief History

WeCare Community Center, Inc. was founded in 1997 to help children rise above the negative statistics (violence, drugs, broken homes and low graduation rates) and achieve success. It was our belief that education could transform the lives of the youth and young adults, preparing them for professional careers. Today we are still holding strong to those beliefs and are broadening our reach to families and the community. Attempting to stimulate our youth to be caring and thoughtful leaders and arm our families with the tools needed to thrive in today's world is our way of making a difference [giving back to the community]. This mighty connection, in our book, will result in our youth returning to their communities, becoming the core of a highly qualified workforce and active business & community leaders who create a strong regional economy.

Funding enables WeCare to offer a wide range of workshops, fun programs and cultural events designed to stimulate community engagement and encourage dialog.

is Life’s Greatest Blessing.”*

We envision an inspired and confident youth, a powerful and strong family dynamic and a connected community where each unit works together.
